Education

Tarlac State University
Graduated 2016

Bachelor of Science in Information
Technology

Experience

React Developer **June 2021 - Present**
White Cobalt (via Cloud Employee) is a digital transformation partner integrating digital technology into core areas of business.

Responsibilities:

- Design and construct reusable components and custom hooks for various projects which facilitated a faster development and seamless transitions between projects, all built using ReactJS.
- Demonstrated prowess in delivering code that is not only well-structured but also highly reusable, robust, scalable, easily maintainable, and comprehensively documented.
- Expertly initiated and managed client projects and it's associated mobile application, both fresh endeavours and existing ones, leveraging our in-house framework.
- Adeptly crafted the frontend of the projects from the ground up, guiding them from conceptualization and business analysis to technical design, development, and deployment.
- Debug and resolve complex technical issues and bugs.
- Collaborate with cross-functional teams to analyze requirements and to articulate issues.

Projects:

- Halspan Tracker (Admin Area, Halspan Hub, Tracker Portal, Tracker App - Mobile Application)
- Rubitek Solutions Ltd. - SAAS Apprenticeship Management Platform (Admin Area, Learner Portal, Mobile Applications: Rubitek, Corserv Academy, London Examinations Board, CLAAS Apprentice Portal, Digital Native)
- Bridger's Law - Case Management System (Admin Area, Client Portal)

Technology used:

React.js, React Hooks, TypeScript, JavaScript, React Native, Node.js, GraphQL, REST APIs, HTML, CSS, SASS, Agile-Scrum

Other tools used:

Android Studio, Xcode, Expo, Git, Postman API, VS Code, Microsoft Azure, Asana, Storybook
